FOREWORD

Information presented in this volume was taken from the 1982 Annual Report/System Membership Applications submitted by public libraries in Texas.

The public library directory, which begins on page 1 of Section II, includes city and county libraries and their branches, listed in alphabetical order by city. The hours per week for those libraries with branches are a composite of hours for both the central library and branches which do not overlap. Following this directory is a statistical profile of libraries submitting reports, arranged alphabetically by city name within each regional library system (BCLS, CTLS, etc.). Note that the Major Resource Center city is **not** shown at the beginning of each system, but occurs wherever that city name falls alphabetically. A separate introduction is included at the beginning of the statistical section to explain the new format. A new section of summary statistics is included for the first time this year, located before the county profile of library service. As in the past, most data items do cover the last local fiscal year or reflect the status at the end of that year, except for the staffing information, which is as current as possible. The membership year noted in the directory is State Fiscal Year 1983 (September 1, 1982 - August 31, 1983.)

Following the statistical section is an index which includes names of Head Librarians and Branch Librarians, and the names of libraries and branches which do **not** begin with the name of the city in which they are located.

We would like to express our gratitude to all the public librarians for their cooperation and efforts in completing the Annual Report/System Membership Application forms, as well as the regional system coordinators for their part in the gathering of both statistical and directory information. Special thanks go to Mitchell Gidseg, Statistician of the TSL Library Development Division, who designed the software and format for the statistical section of this year's publication. Haven Whatley Toothman of the TSL Library Development Division was responsible for collecting and verifying the Annual Report/System Membership Application forms, as well as for data entry of the statistical section and typing and coordinating the publication of this volume. Other members of the TSL Library Development Division who contributed their time and efforts were Colleen Pittman and Mae Murray - data entry, and Bell Colyer - layout, paste-up, and graphics production.

Directory of Public Libraries and Branches

Directory of Texas Public Libraries and Branches

In the listings below, an asterisk(*) is used to indicate SFY 1983 members of the regional library systems (see Section I for a listing and map of these regions). The double asterisk (**) denotes summer hours of service, while "hpw" indicates the total, non-duplicative hours of library service per week in each library. The number following a library's name references that library's entry in the statistics found in Section III, if applicable.

ABERNATHY
(Hale) WTLS*
Abernathy Public Library 391
P.O. Box 686, 79311

III.

Selected Statistical Information for Texas Public Libraries, 1982

INTRODUCTION

The statistics section is organized into three subsections: Statistics by Library, Summary Statistics, and Statistics by County. Each subsection is described below.

Statistics by Library

Format

Each page in this subsection contains the complete profiles of five libraries. Each profile appears as a column of information which is clearly labeled on the lefthand side of each page.

The profile number at the top of each column is a unique number which identifies the library. The profile numbers are listed sequentially throughout the subsection and are useful in finding a specific library profile when coming from the directory.

Organization

- Libraries are grouped by region or library system.
- Library systems are arranged alphabetically by library system abbreviations, for example, BCLS stands for the Big Country Library System. A map and list of all library systems are located on page 4 at the front of the publication.
- Within each system, the city in which the library is located is arranged alphabetically. Major Resource Centers (MRC's) are no longer automatically listed first for each library system; member and non-member libraries are intermingled.
- Profiles are reported for each federated library system member in place of a consolidated profile for the federated system as a whole. Profiles are also reported for federated library system headquarters. Data from federated library system headquarters are included in the statistical summaries but headquarters are not considered or counted as separate libraries.

Changes in Content

Information Added: "Library legal establishment," "Uncataloged paperback titles," "Unbound periodical titles," "Total titles," Turnover rate of total collection," "In-library usage," "Total number of library visits," "Reference transactions," "Circulation per FTE," "Number of registered borrowers," "Registration as a % of population," and "Fringe Benefits."

Information Deleted: "Uncataloged paperback volumes," "Unbound periodical volumes," and "Reference questions filled."

Summary Statistics

Format and Organization

This subsection contains one page of summary information for each library system and for the state as a whole. The library system summaries are arranged alphabetically by library system abbreviation; the state summary is reported last. Each page in this subsection has the same format: in the first column is a list of items in the library profile; in the second, third, and fourth columns, summaries are provided for each item in the profile grouped by member libraries, non-member libraries, and total libraries, respectively.

The following additional information is reported only for the state summary: the number of "Branches," "Deposit stations," "Bookmobiles," "Libraries receiving city funds," "Libraries receiving county funds," "Counties without library service," the "% of libraries receiving city funds," the "% of libraries receiving county funds," "Total expenditures per capita (1980 Total State Population)," "Total population in 1980 census."

Notes

The totals associated with the variable "Total number of library visits" should be interpreted with caution. The totals underrepresent the actual figures since only 81 out of 418 libraries provided information about this variable.

The totals and percentages associated with the variables "Number of registered borrowers" and "Registration as a % of population" should also be interpreted with caution. The totals and percentages underrepresent the actual figures since only 158 out of 418 libraries provided information about these variables.

Statistics by County

Format

Each page in this subsection is composed of seven columns of information. They are listed from left to right as follows: "County Name," "Population 1980 Census," "Population Served in 1982," "Maximum Property Tax for Library," "County Library Expenditures," "Cities with Libraries," "Profile Number."

Organization

The information is arranged alphabetically by county.

Changes in Content

Information Added: "Maximum Property Tax for Library," which is the total tax valuation of each county × $\frac{\$0.12}{\$100.}$

Information Deleted: "Tax Valuation per $1,000."

The statistician encourages users to submit comments concerning these noted changes in the statistics section as well as any suggestions for further improving it. These comments and suggestions should be addressed to

NOTES

(1) The totals associated with the variable "Total number of library visits" should be interpreted with caution. The totals underrepresent the actual figures since only 81 out of 418 libraries provided information about this variable.

(2) The totals and percentages associated with the variables "Number of registered borrowers" and "Registration as a % of population" should be interpreted with caution. The totals and percentages underrepresent the actual figures since only 158 out of 418 libraries provided information about these variables.

NOTES

(1) This is a county in which the population served is greater than the total county population. This occurs because the Texas State Library has assigned a part of an adjacent county's population to one or more libraries in the county.

(2) This is a county in which the population served is less than the the total county population. This occurs because the Texas State Library has assigned a part of this county's population to one or more libraries in an adjacent county.

(3) The Dallam County Library provides library service to Hartley County residents under contract.

(4) The Robert J. Kleberg Library in Kingsville provides library service to Kenedy County residents under contract.
